Pat yourself on the back

Today is a great day!

Principle 14: Creative Vision

Creative vision is a quality of mind belonging only to men and women who follow the habit of going the extra mile, for it recognizes no such thing as the regularity of working hours, is not concerned with monetary compensation, and its highest aim is to do the impossible.

Creative vision is definitely and closely related to that state of mind known as faith, and it is significant that those who have demonstrated the greatest amount of creative vision are known to have been men with a great capacity for faith. This is both logical and understandable when we recognize that faith is the means of approach to Infinite Intelligence, the source of all knowledge and all facts, both great and small.

The imagination is the workshop of the soul wherein are shaped all plans for individual achievement.

Whatever the mind can conceive and believe, the mind can achieve.
